Hi all,

Jack Lewnard (cc's here) is the ARPA-E lead on this FOA and can represent ARPA-E in this conversation. His team has been in contact with a number of folks at EPA including CMOP, LMOP and Greenhouse Gas Inventory. I will connect directly with Delaney on scheduling – thank you!

Thanks for looping us in. Copying OAR's Chief of Staff, Ann Campbell, Delaney Raksonik, our scheduler, and suggested attendees so you have their emails. Peter, Paul, or Chris may suggest one or two others unless you want to limit the attendance. Thanks, again.

## Ex. 5 Deliberative Process (DP)

Hi Alison,

Attached are the five EPA proposed climate summit deliverables on which NSC requested more information (tab A of attached spreadsheet) for AO review and then submission back to NSC by Friday. Proposals have been reviewed/cleared by program front offices. All appear to be based on existing resources.

## Ex. 5 Deliberative Process (DP)

Once you have reviewed, either you or I can send them to Helaina Matza at NSC.

Thanks, Mark

**Subject:** President's Climate Leaders' Summit - Deliverables & NS

Dear All,

Thank you for your contributions on potential deliverables for the Leaders' Summit. The attached spreadsheet outlines high and medium priorities for the Summit, bilateral opportunities and potential deliverables for other important milestones on the road to Glasgow. If you put forward a proposal on the first tab of the spreadsheet, please fill out the attached proposal template outlining your concept further; including status/timeline, partner countries and budget.

We suggest prioritizing proposals that focus on the countries in the attached Leaders' Summit invitation list (as partners and/or regions of focus). If you have a suggestion that you are interested in putting forward that is not on that first tab please let our team know and submit a proposal.

Let me know if you have any questions. We are requesting **final proposals by March 19<sup>th</sup>**.

Thank you all,

Helaina

**Subject:** FW: EPA response to the data call in EO 13990

OAR, OCSPP, ORD, OLEM and OW:

Enclosed is the final list of actions submitted to OMB on those actions to be completed in 2021, OMB significant and those that we plan to revise, revoke, or rescind. Thank you for all your help and a special thanks to Caryn for pulling this list together.

Have a great weekend!

Mary

**Subject:** EPA response to the data call in EO 13990

Amanda,

Please find attached EPA's response to the data call in EO 13990 to identify "a preliminary list of any actions being considered pursuant to section (2)(a) of [EO 13990] that would be completed by

December 31, 2021, and that would be subject to OMB review." Our list of 29 such actions is attached.

Please consider this list to be preliminary. Some of the actions included are pending further policy discussion and deliberation and as a result may not be signed in 2021. For your convenience, we have included RINs to help identify the actions. RINs with a \* are old, and relate to the prior final action that is currently being reviewed.

Please let me know if you have any questions or would like to discuss further. Thank you.

Bill

Hi all,

Please find attached a description of the four CAFE cases and their current status. I'd like to say a brief word about the truck/trailer litigation on Tuesday just to make you aware of the status and issues surrounding it.

Hope you all got some weekend time in.

It looks like SPEC has identified the EPA summit deliverable proposals listed below as medium level priorities and asked full project proposals, using attached template, by next March 19th. Since AO will submit back to the White House and review before doing so, I suggest that all proposals be filled out by March 16<sup>th</sup> and cleared up to the acting AA level no later than COB, Tuesday, March 16<sup>th</sup>.

Mark, please advise if you think the timeline above should be adjusted.

**Subject:** President's Climate Leaders' Summit - Deliverables & NS

Dear All,

Thank you for your contributions on potential deliverables for the Leaders' Summit. The attached spreadsheet outlines high and medium priorities for the Summit, bilateral opportunities and potential deliverables for other important milestones on the road to Glasgow. If you put forward a proposal on the first tab of the spreadsheet, please fill out the attached proposal template outlining your concept further; including status/timeline, partner countries and budget.

We suggest prioritizing proposals that focus on the countries in the attached Leaders' Summit invitation list (as partners and/or regions of focus). If you have a suggestion that you are interested in putting forward that is not on that first tab please let our team know and submit a proposal.

Let me know if you have any questions. We are requesting final proposals by March 19<sup>th</sup>.

Thank you all,

Helaina

Dear TPSC Colleagues,

Attached is the President's 2021 Trade Policy Agenda. This is a political-level document, and we ask TPSC agencies to focus their responses on factual matters.

The Trade Policy Agenda also will be discussed at the Trade Policy Review Group meeting this Friday, February 19, 2021.

Responses are due by no later than **12:00 pm Friday, February 19**. Given the March 1 statutory deadline, we will not be able to accommodate any extensions to this deadline.

Comments should be sent to USTR Chief of Staff Nora Todd (Nora.C.Todd@Ex. 6 Personal Privacy (PP)) and USTR Deputy Chief of Staff Ginna Lance (Virginia.L.Lance@Ex. 6 Personal Privacy (PP)), with a cc to Ed Gresser (Edward.B.Gresser@Ex. 6 Personal Privacy (PP)) and Karen Lezny (Karen.M.Lezny@Ex. 6 Personal Privacy (PP)).

Thank you.

Dear Dr. Martinez,

It was a pleasure to continue our conversation from last week and meet the experts on the USDS team. We hope that you all walked away with a more detailed understanding of Aclima's mapping and monitoring capabilities to support implementation of the Justice40 initiative. We appreciate everyone's thoughtful questions and we look forward to next steps.

Per requests from the USDS team, we would like to reshare the recommendations we passed on to the Transition Team, available here: [Aclima Recommendations and Roadmap](#). The document provides detail on our rationale, solution and roadmap along three workflows: Mapping Equity, Monitoring Pollution, and Modernizing Infrastructure. You can also find the presentation used during our meeting yesterday here: [Aclima Briefing Deck](#).

Please let us know when you and the team would like to meet next week. We also welcome the sharing of any questions beforehand so that we can make sure the next meeting is focused on those topics. In the meantime, we are updating our Advisory Board on the latest.

Looking forward to reconnecting next week.

Thank you again,  
Davida

**Subject:** [EXTERNAL] Screening tool in 100 days, community monitoring at scale

Dear Dr. Martinez,

I'm connecting at Kerry Duggan's suggestion regarding Aclima's proposal and roadmap for a National **Climate and Economic Justice Screening Tool**. Our technology is 'shovel ready' for delivery of the tool in 100 days and is integrated with our high-resolution monitoring system for air pollution, GHGs and toxics. Our proposed monitoring program can reach 25% of the country's population within 24 months of initiation, prioritizing environmental justice communities across the country, in places like Cancer Alley.

You can access the entire proposal **via this link**. The executive summary is on pages 4-7, with a one page overview on page 7. For ease, we've separated out the executive summary **at this link**. The remainder of the document provides detail on our rationale, solution and roadmap along each of the three workflows:

1. Mapping Equity,
2. Monitoring Pollution, and
3. Modernizing Infrastructure

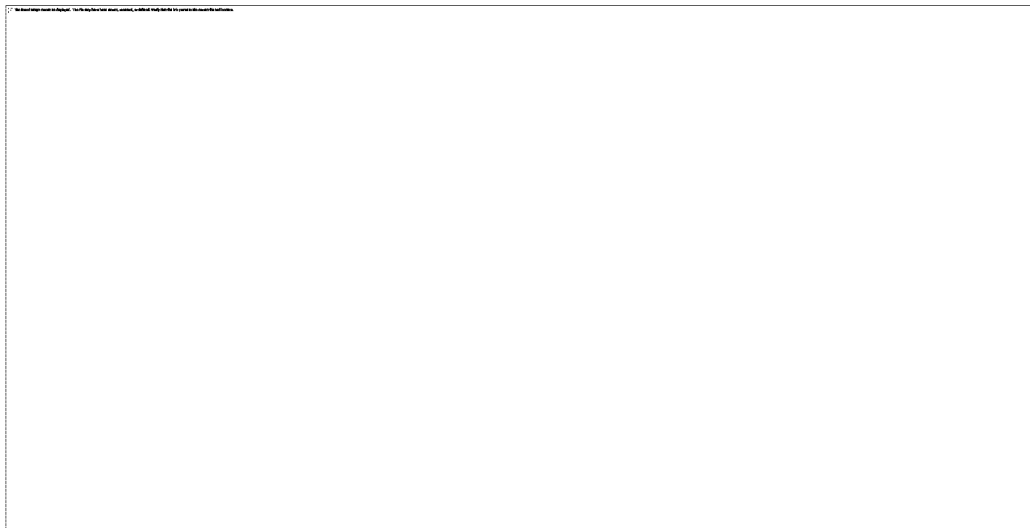

We've provided details that aim to demonstrate the "shovel-ready" nature of the roadmap. For example, the Mapping section includes a draft schema with all data sources already in the system, as well as screenshots of climate risk and resilience indexes that are already live. The Monitoring section includes maps and statistics on population coverage and job creation benefits. In the appendix, we've included several references that may be helpful, including the vision

statement between EPA and Aclima behind our existing CRADA. We are building out a national advisory board of EJ leaders, including leaders like Catherine Flowers, who are advising the creation of the tool.

We are prepared to provide briefings on our recommendations and can support very rapid iteration, so please let us know your thoughts on next steps.

All my best,

Davida

Hi all, topline comments attached. We've tried hard to limit the discussion points today. In some cases, comment bubbles remain in case something is easy to address in short order but are not critical for today. The line edits are generally the main areas of focus for today.

Also, in the words of one reviewer, wanted to pass along that we all recognize this is an extraordinary work in such short order.

Best, Elke

Dear All,

Thank you for your contributions on potential deliverables for the Leaders' Summit. The attached spreadsheet outlines high and medium priorities for the Summit, bilateral opportunities and potential deliverables for other important milestones on the road to Glasgow. If you put forward a proposal on the first tab of the spreadsheet, please fill out the attached proposal template outlining your concept further; including status/timeline, partner countries and budget.

We suggest prioritizing proposals that focus on the countries in the attached Leaders' Summit invitation list (as partners and/or regions of focus). If you have a suggestion that you are interested in putting forward that is not on that first tab please let our team know and submit a proposal.

Let me know if you have any questions. We are requesting **final proposals by March 19<sup>th</sup>**.

Thank you all,

Helaina

Hi Steve,

Congratulations on your new assignment! I hope you are doing well and settling into your new job.

I have attached a recent EDF whitepaper assessing the climate and air pollution benefits of rapidly transitioning MD/HD trucks and buses to zero-emitting vehicles. As you can see from the paper, the benefits are substantial. Here is the link to the report: [https://www.edf.org/sites/default/files/2021-03/HD\\_ZEV\\_White\\_Paper.pdf](https://www.edf.org/sites/default/files/2021-03/HD_ZEV_White_Paper.pdf)

If you have time in the near future, I wouldn't mind catching up with you on cars and MD/HD vehicles.

Best,  
 Chet

Hi Alison,

Attached are the five EPA proposed climate summit deliverables on which NSC requested more information (tab A of attached spreadsheet) for AO review and then submission back to NSC by Friday. Proposals have been reviewed/cleared by program front offices. All appear to be based on existing resources.

## Ex. 5 Deliberative Process (DP)

Once you have reviewed, either you or I can send them to Helaina Matza at NSC.

Chris, attached is the interagency package to clear on Kigali. Clearance is requested by 3/1. However, we are waiting on the memo of law which will come separately and just to EPA (Karen and Melina contributed to it's development). State understands we will want to review the memo before clearing.

State is not planning a meeting unless requested. Karen will flag the package for OGC front office.

Once OAR is satisfied, I am happy to notify State. I already flagged that if the memo of law is delayed by more than a day or so, we may need beyond 3/1.

Best-  
Cindy

Thanks again for a helpful conversation this afternoon. Attached are our suggested edits on the items we discussed on the call. (Per our discussion, I accepted all other EOP edits and deleted resolved comment bubbles so it is a much cleaner document and you can easily find what remains.)

I hope this helps. Per the note on Figure 2, we can update Figs 2-4 tomorrow as needed depending on the outcome of the co-chair discussion.

Thanks!

Hi all, topline comments attached. We've tried hard to limit the discussion points today. In some cases, comment bubbles remain in case something is easy to address in short order but are not critical for today. The line edits are generally the main areas of focus for today.

Also, in the words of one reviewer, wanted to pass along that we all recognize this is an extraordinary work in such short order.

Best, Elke

Hi all,

I'm attaching two documents for background. One is NHTSA's estimated timeline for our penalty rule. We're contemplating OIRA review March 12-26 and are beginning conversations with them to give them a heads up.

The second document includes the language about redirecting CAFE penalty revenue if appropriated.

See you later today.

Best,

Ann

Joe,

FYI, attached is the current version of the TSD. We're working on edits over the weekend in response to the latest comments and edits from OMB. The plan is to get this back to them no later than Sunday evening. No red flags in the latest round of edits, but still a few loose ends to track down. No word on exactly when they are planning on releasing next week.

Best,  
 Allen

Hi Vicki and Philip,

For your awareness, attached is the current version of the TSD. The only tracked changes are those that OMB made on top of the pass back we sent them on Wednesday, and any edits you see from me are ones I made today in response to their remaining requests. Al, Allen and others are still reviewing so I don't know if they will still have any tweaks or additions to what I have done. If you have any edits or additional comments please feel free to let me know as well.

As I note in my email to Al et al. below, I'm not sure how quickly OMB is expecting this back from us. But someone on the team can send over the weekend if need be.

I hope this helps for now, and hope you have a great weekend.

Best,  
Elizabeth

Hi All,

It's me again. Not sure if any of you have had a chance to review yet, but I tried to fill in the remaining holes. See attached. The only thing I can't find is the Ex. 5 Deliberative Process (DP) but I'll try to find by Monday. I'll be unavailable tomorrow so if anyone sees this in the next hour and can give me the go ahead to send back to Elke then I can still do that tonight. Otherwise, if it needs to go back to OMB before Sunday evening, then can one of you please do it?

I'll send to Vicki now too for her awareness. Allen- I assume you have been keeping Joe in the loop but if you would like me to forward to him instead then please let me know.

Thanks,  
Elizabeth

Hi All,

Attached is a cleaner version of what Elke sent back this afternoon. I left all of their changes tracked so you can take a look. I have no concerns with them. The few edits you see from me are ones that I made right now. Please let me know if you have concerns with any of their edits and/or thoughts on the few remaining spots where they asked us for something.

I think we are close.

Thanks, Elizabeth. Here's the latest version of the TSD again back to you. There are maybe a handful of things (tried to highlight them) left for EPA to address. I have also tried to keep up with the edits you sent, but please check again to make sure I got everything right. If you all have substantive disagreements with other things as edited in here (besides technical fixes), let us know so we can discuss before passing back another version.

Dear all,

Compliments to OITA and yourselves for initial proposals, attached please find some feedback re: potential **Climate Summit Deliverables** – see spreadsheet under the first tab for potential deliverables. It appears we've a couple of deliverables to flesh out and fill-in seven or so standard questions/descriptions via the attached LSOC Proposal Template.

## Ex. 5 Deliberative Process (DP)

With apologies for the rush, please pass back completed templates by COB Monday if at all possible and we can discuss at Air Issues Tues. morning. Joe needs to clear and they're due to OITA COB Tues.

# Ex. 5 Deliberative Process (DP)

Finally, note that there are "additional" deliverables under tab 3 in the spreadsheet that are on hold for now, unless we might want to appeal, including next steps with bilats (see tab 2 in spreadsheet). That said, you may want to peruse the invite list (first attachment & tab 2) and above descriptions for other ideas/opportunities with proposals.

Thanks!

John

It looks like SPEC has identified the EPA summit deliverable proposals listed below as medium level priorities and asked full project proposals, using attached template, by next March 19th. Since AO will submit back to the White House and review before doing so, I suggest that all proposals be filled out by March 16<sup>th</sup> and cleared up to the acting AA level no later than COB, Tuesday, March 16<sup>th</sup>.

Mark, please advise if you think the timeline above should be adjusted.

Dear All,

Thank you for your contributions on potential deliverables for the Leaders' Summit. The attached spreadsheet outlines high and medium priorities for the Summit, bilateral opportunities and potential deliverables for other important milestones on the road to Glasgow. If you put forward a proposal on the first tab of the spreadsheet, please fill out the attached proposal template outlining your concept further; including status/timeline, partner countries and budget.

We suggest prioritizing proposals that focus on the countries in the attached Leaders' Summit invitation list (as partners and/or regions of focus). If you have a suggestion that you are interested in putting forward that is not on that first tab please let our team know and submit a proposal.

Let me know if you have any questions. We are requesting **final proposals by March 19<sup>th</sup>**.

Thank you all,

Helaina

Thanks for looping us in. Copying OAR's Chief of Staff, Ann Campbell, Delaney Raksonik, our scheduler, and suggested attendees so you have their emails. Peter, Paul, or Chris may suggest one or two others unless you want to limit the attendance. Thanks, again.

**Subject:** FOR CLEARANCE by March : Elements on the transmittal package of the Kigali Amendment to the Montreal Protocol

Dear interagency colleagues,

Executive order 14008 signed by President Biden on January 27 directed the State Department to prepare within 60 days a transmittal package seeking the Senate's advice and consent to ratification of the Kigali Amendment to the Montreal Protocol on Substances that Deplete the Ozone Layer. The Kigali Amendment was adopted in 2016 by the 28<sup>th</sup> Meeting of the Parties to the Montreal Protocol. The Kigali Amendment provides for a global phasedown of the consumption and production of hydrofluorocarbons (HFCs). Global implementation of the Amendment is expected to avoid as much as half a degree Celsius in global temperature rise by 2100.

We are sharing elements of this package for your agencies' comment and clearance: 1) the draft Secretary of State's report to the President on the Kigali Amendment, and 2) the draft message to the Senate by the President. For background, the text of the Kigali Amendment and the amended text of the Montreal Protocol, and an Executive Summary of the Amendment are also attached.

Please send your comments and clearance by **no later than COB next Monday, March**

**1.** Please feel free to reach out to me if you have any questions.

Hi Joe, here are a few comments on the memo of law. I thought the OGC/OAP feedback on the transmittal package looked good, and didn't have any additional suggestions on those documents.

Hi Joe and Tomás –

Attached are versions of the Kigali clearance documents and the memo of law with OGC's and OAP's comments incorporated. We had comments on all but one of the documents.

The interagency meeting is Friday. State Department would like to have our comments ahead of that meeting. Of the four documents, I suggest you prioritize the memo of law.

Lastly, State has flagged that they received other comments including from OMB. We have asked to review how they intend to address those, as appropriate.

Best-  
Cindy

Dear interagency colleagues,

Thanks to agencies that have already cleared on the documents from the Kigali Amendment transmittal package we circulated earlier this week. We look forward to hearing from other agencies by COB Monday, if possible.

The State Department will host a virtual interagency meeting on Friday March 5 from 1-2 pm to complete interagency consultations on the Kigali Amendment transmittal package. Deputy Assistant Secretary of State for Environment John Thompson will host the interagency meeting, with agenda as follows:

1. Introductions
2. Background
3. Kigali Amendment transmittal package
4. Next steps

We will follow with details for the virtual connection. We look forward to speaking with you next Friday.

Best regards,

Andrew
